## April 2009 newsletter

### AFI Sunday Evening Lectures

**Sunday 5th April**

**Christine Broadbent**

#### **Venus Retro – Exploring the mysteries of the Hidden Goddess**

A discussion of the current retro cycle as well as the general significance of Venus in her Underworld state, plus her Morning Star and Evening Star manifestations. Christine will examine a chart of someone in the news as well as encouraging people to explore their own charts.

This subject will be explored further in a workshop by Christine in May—see details below.

**Sunday 3rd May**

**Alison Maciver**

**Subject to be advised**

#### **Venus and Moon as Triune Goddess**

**Sunday May 17, 2009**

With Venus appearing as Morning or Evening Star, then disappearing for a while, her triune aspect is obvious. Likewise Moon whose well known 'hats' are New black Moon, Crescent Moon and Full Moon. Again one face is invisible. The Triune Goddess tells us all of our witchy wisdoms, particularly informing women of their feminine identity and men of their relationship wishes/issues. Come explore what stories she carries in your natal birth pattern, how these mystery making features of Moon and Venus add depth to your knowledge of Moon and Venus by sign and house. This is a natural follow on from Christine's lecture on Venus.

Time: 10:30 am - 5 pm

Fee: \$90 (\$80 for AFI members who bring their own chart)

I need your birth details when you book.

Bring your lunch, afternoon tea provided.

Venue: 119 Queen Street, Northcote Point

### Local Classes and Workshops

#### **Signs Divided - Decanates & Dwads**

**Date:** Sunday, 26 April

**Time:** 10.00 am - 4.00 pm

**Fee:** \$80

Discover the subtle differences within each Sign of the zodiac. Why is it that the first few degrees of the Signs show the pure qualities of their nature while the middle and end degrees have a different edge, an added pinch of something that makes those basic qualities appear to go against the norm? By the end of this workshop you will have a whole new understanding and respect for one of the most essential building blocks of chart interpretation.

#### **The Continuing Story of Horary Astrology - Term II**

**Dates:** 29 April - 1 July (10 week course)

**Time:** Wednesdays, 10.00 am - 12.00 noon

**Fee:** \$160

An ongoing class exploring all manner of life's questions that can be asked of - and insight gleaned from - the Horary chart.

Venue for all classes and workshops: 119 Queen Street, Northcote Point, Auckland

#### **Reading the Directed Chart**

##### **Solar Arc Directions**

**Sunday 19<sup>th</sup> April 2009**

Solar Arc Directions – Is this system just a alternative dynamic tool or is it perhaps the simplest, most direct and most successful predictive system in astrology? Colleen, enthused and excited by the work of Noel Tyl, will present Solar Arc Directions in this workshop. Their simplicity, accuracy and how they interface with both Transits and the Secondary Progressed Moon can be quite breathtaking. The emphasis is on interpretation, and real life application rather than the technical nuts and bolts of calculation.

**Venue:** 119 Queen Street Northcote Point

**Time** - 10 am - 4 pm

**Fee** \$80 - Registration essential

Extensive handouts are provided; the class works with class charts so be sure to give your birth data when you register.

Morning Tea provided
