Finding the Magic in Horary Astrology

Horary has much to do with the question of time - and the timing of questions. It is a branch of astrology that Carol particularly enjoys practicing and teaching. How do you read a horary chart when several totally different questions are asked at exactly the same moment in time? Join Carol in a fun, revealing and totally informative evening.

There's a place for us

In the words of the song from West Side Story "There's a place for us—a time and place for us..."

Many people who've met with good fortune have said they were in the right place at the right time and Astro*carto*graphy can help us find the right place. However, it is also useful if we find ourselves in a 'stuck place', showing us what we need to learn before we can move on.

Sunday workshop with Colleen

Rectification

Sunday 12th July

Rectification is not for the faint hearted; furthermore there is no guarantee when working with a totally unknown birth time. The upside is the astrological journey that tests both astrology and the astrologer. This workshop looks at tying down the approximate birth time using Solar Arc, Secondary Progressions and introducing **Tertiary Progressions**, reputedly the most time sensitive predictive tool. To 'prove' your chart please register early and send your info and relative event dates to Colleen.
