AFI Sunday Evening Lectures

Sunday 7th June

Anne Macnaughtan

Looking out from June 2009

Each year at the mid year point I do a project for my website (www.forecasters.co.nz) about the coming 12 months, looking at what the planets will be doing over the next 12 months, how they'll be interacting with each other and how that plays into where things are now. It ends up to be a bit more than 12 months, but I find that the midway point in the year is a good time to look ahead, especially as we're heading into some very interesting times during that period.

Finding the Magic in Horary Astrology

Horary has much to do with the question of time - and the timing of questions. It is a branch of astrology that Carol particularly enjoys practicing and teaching. How do you read a horary chart when several totally different questions are asked at exactly the same moment in time? Join Carol in a fun, revealing and totally informative evening.

Workshop with Christine Broadbent

Plotting Your Time Map from Winter to Summer Solstice

With Winter Solstice comes the darker times yet it is the "birth of the new light" (I Ching) as the light gradually begins to grow again until the longest day of the year at Summer Solstice. You will leave this workshop with a lunar/planetary time map for June 21 to December 22 that is personalised to your own chart - by you under Christine's guidance. It will be a lot of fun getting to that point. Come and see.

Sunday June 7, 2009

Time: 10:30 am - 5 pm

Local Classes and Workshops

Signs 'n' Houses

Time: 10:00 am—4.00 pm

Date: Sunday, 21 June Fee: \$80

In this workshop we'll be really getting familiar with the Signs of the Zodiac and how each sign plays a part in the overall understanding of the make-up of your natal chart. Your chart will come to life as you discover how the qualities and elements of each Sign colour your attitudes to all spheres of life activity, which are represented by the 'Houses', the 12 divisions of the horoscope. This workshop is suitable for beginners and those wishing to revise their interpretative skills.

Where is Fortune in your Chart?

Time: 10:00 am—4.00 pm

Date: Sunday, 28 June Fee: \$80

Talk of fortune and you may immediately think of great riches and material wealth. But riches and wealth take many forms which may be found in places you never dreamed possible. Carol not only looks at the placement by sign and house in the chart of *pars fortunae* — or as it is more commonly known, the Part of Fortune — but how the Sun/Moon/Ascendant relationship on which its calculation is based, describes the unique personality that goes with it. Bring your chart and discover what part Fortune plays in your life. This workshop is suitable for intermediate & advanced students.

Sunday workshop with Colleen

Rectification

Sunday 14th June and Sunday 12th July

Dirty birth data - or at worst no birth time at all, has plagued natal Astrology and the natal Astrologer since the beginning of time. Systems and theories abound on how to prove a birth time - many have little or no astrological relevance. There are however three systems of **Rectification** that are valid in terms of true astrological practice. In the June workshop we will use the precision of Solar Arc Directions to prove and perfect approximate birth times. We will work totally with class charts so this is an opportunity to verify a questionable birth time - register early, submit your birth data (your own or another) along with relevant events pertaining to the chart to be rectified.
