Horary has much to do with the question of time - and the timing of questions. It is a branch of astrology that Carol particularly enjoys practising and teaching. ### Local Classes and Workshops

#### Sunday Workshop with Colleen

##### Sunday 20th June

##### **The Minors and Those Not-So-Common Aspects**

The Harmonic chart gives us an insight to the natal chart at a different level but that is only half the story; now it's time to meet those "*not-so-common aspects*."

What do the *Quintile, Novile and Septile* families of aspects do? How can they be combined with traditional aspects - what is their meaning and what is their value? This workshop will not only investigate the aspects that result from the less common division of the circle but will take a serious look at traditional *Minor Aspects*. You might just be surprised just how Major a Minor aspect can be!

Workshop will work with class charts so be sure to supply your data when registering.

Venue: 119 Queen Street Northcote Point

Time: 10 am - 4 pm Fee: \$80

Registration essential. Extensive handouts and all relevant personal charts provided for this workshop. Morning Tea provided.
