## June 2011 newsletter

### AFI Sunday Evening Lecture

#### Sunday 5th June Christine Broadbent The Power of Symbols

Astrology is a symbolic language and its symbols have demonstrated great sustainability through the millennia and in a variety of cultural and religious contexts. Just the fact that modern astrologers now have access to a number of new translations of old texts indicates the ongoing relevance of these powerful meaning systems. This touches upon something I hope to examine in much more depth as a PhD topic. We will explore the symbol "As above, so below" in its historical context and also its pivotal role in the astrological magical tradition.

It is where we find hidden treasure. Never before have we devoted a whole workshop to just one area of the chart. But in today's workshop we will be doing just that. And answer the question Who am I – and where did I come from?
