## March 2009 newsletter

### AFI Sunday Evening Lectures

**Sunday 1st March**  
**Anna Esteroth**  
**Horary Astrology**

Whether you are an expert or an innocent about horary this talk is designed to inform you how to use the technique and answer any question the participants chose to ask.

**Sunday 5th April**  
**Christine Broadbent**  
**Venus Retro –**

**Exploring the mysteries of the Hidden Goddess**

A discussion of the current retro cycle as well as the general significance of Venus in her Underworld state, plus her Morning Star and Evening Star manifestations. Christine will examine a chart of someone in the news as well as encouraging people to explore their own charts.

This subject will be explored further in a workshop by Christine in May—see details below.

**Venus and Moon as Triune Goddess**  
**Sunday May 17, 2009**

With Venus appearing as Morning or Evening Star, then disappearing for a while, her triune aspect is obvious. Likewise Moon whose well known 'hats' are New black Moon, Crescent Moon and Full Moon. Again one face is invisible. The Triune Goddess tells us all of our witchy wisdoms, particularly informing women of their feminine identity and men of their relationship wishes/issues. Come explore what stories she carries in your natal birth pattern, how these mystery making features of Moon and Venus add depth to your knowledge of Moon and Venus by sign and house. This is a natural follow on from Christine's lecture on Venus.

Time: 10:30 am - 5 pm

Fee: \$90 (\$80 for AFI members who bring their own chart)

I need your birth details when you book.

Bring your lunch, afternoon tea provided.

Venue: 119 Queen Street, Northcote Point

Venue for all classes and workshops: 119 Queen Street, Northcote Point, Auckland

**Reading the Progressed Chart**

This double workshop - **Sunday 8<sup>th</sup> March and Sunday 19<sup>th</sup> April** is designed to facilitate reading computer generated progressions rather than a "how to do class." Progressed planets and angles give a comprehensive overview to an individual's internal development and growth, but some "work" better than others—why? What did C E O Carter and Alan Leo mean by excitation? How important are progressed stations and retrograde motion? And how best to put it all together.

Extensive handouts provided – class works with class charts so be sure to give your birth data when you register.

Venue: 119 Queen Street, Northcote Point

Time: 10am-4pm Fee: \$80 per day

Registration is essential. Morning tea provided.
