AFI Sunday Evening Lectures

Sunday 3rd May

Alison Maciver

Derek Hawkin's Experiential Astrology

During 2009 Alison travelled to the UK and back through San Francisco. She met with several groups in London and enjoyed attending sessions at the Summer School of Astrological Studies in Oxford where she participated in one of Derek Hawkin's Experiential Astrology presentations. She will share this with you in an evening of practical experience of Derek's approach.

Sunday 7th June

Anne McNaughtan

Looking out from June 2009

Each year at the mid year point I do a project for my website (www.forecasters.co.nz) about the coming 12 months, looking at what the planets will be doing over the next 12 months, how they'll be interacting with each other and how that plays into where things are now. It ends up to be a bit more than 12 months, but I find that the midway point in the year is a good time to look ahead, especially as we're heading into some very interesting times during that period.

Workshop with Christine Broadbent

Venus and Moon as Triune Goddess

Sunday May 17, 2009

With Venus appearing as Morning or Evening Star, then disappearing for a while, her triune aspect is obvious. Likewise Moon whose well known 'hats' are New black Moon, Crescent Moon and Full Moon. Again one face is invisible. The Triune Goddess tells us all of our witchy wisdoms, particularly informing women of their feminine identity and men of their relationship wishes/issues. Come explore what stories she carries in your natal birth pattern, how these mystery making features of Moon and Venus add depth to your knowledge of Moon and Venus by sign and house.

Time: 10:30 am - 5 pm

Fee: \$90 (\$80 for AFI members who bring their own chart)

I need your birth details when you book.

Bring your lunch, afternoon tea provided.

Sunday workshop with Colleen

Rectification

Sunday 14th June and Sunday 12th July

Dirty birth data – or at worst no birth time at all, has plagued natal Astrology and the natal Astrologer since the beginning of time. Systems and theories abound on how to prove a birth time – many have little or no astrological relevance. There are however three systems of **Rectification** that are valid in terms of true astrological practice. In the June workshop we will use the precision of Solar Arc Directions to prove and perfect approximate birth times. We will work totally with class charts so this is an opportunity to verify a questionable birth time - register early, submit your birth data (your own or another) along with relevant events pertaining to the chart to be rectified.
