AFI Sunday Evening Lecture

Sunday 4th September Colleen Coffey The Three Faces of Lilith

What is "Lilith" a Moon, an asteroid, or a Hypothetical Planet? The answer is all three and they can all be found in your chart!

In her lecture Colleen investigates the meanings of the different faces of Lilith, are they the same, similar or completely different. How, and where do you find them, and more importantly does this multi faceted Goddess have any relevance in modern Astrology. Only you can decide whether or not the Three Faces of Lilith have any relevance in your chart - send your details to Colleen before the lecture to have your chart printed, with all three Liliths included.

email: lookernz@xtra.co.nz ph 09 418 2349. This should be fun with just a tad of seriousness.

Local Classes and Workshops

Horary Astrology : Dignities & Debilities

In the third workshop of this introductory series we continue to appreciate the importance of evaluating the strength – or weakness - of the relevant signifying planets when judging the likely outcome of a Horary chart.

The strength of a planet plays a crucial role in the outcome – for better or worse - of the question asked, and this half-day workshop will focus on evaluating just that. We'll be delving into considerations such as rulership, exaltation and fall, terms and faces, speed, cazimi and combustion. An interactive and fun workshop where you all get the opportunity to ask those 'need to know' questions that have been on your mind!

Time: 1.00 pm – 4.30 pm

Date: 24 September 2011

Place: 119 Queen Street, Northcote Point

Fee: \$35 (includes charts, handouts, refreshments)

Registration essential. Contact Carol on 09 444-9187, 021 044 8666 or email caros@astrologyschool.com

The Astrology of Love

A Series of Eight Classes with Christine

Broadbent...Astrology reveals much about love.

Week One...September 22

Seasons of the Heart

We will begin our Spring Equinox adventure by examining what some great thinkers have said about love and how the astrological tradition translates these ideas. Romantic love turns out to only be one face of love just as Venus is only one planet and a complex one at that. We explore the seasons, starting with the Libran equinox, as seasons of the heart.

Week Two...September 29

The Feminine Lights of Moon and Venus

These deceptively simple 'lights' are actually heavy weights in the birth chart and key to many of our ingrained rhythms and patterns. With the 'black goddess' face as ever present as the light bright side of the Feminine, our own chart shows us how and where we make these equally important journeys into the light and dark experiences of love.

Local Classes and Workshops (continued)

Week Three...October 13

The Enigma of the House of Marriage: The Law of Polarity

House 7 is half of Self, even though focused on Other. Opposite and 'square' signs often attract. Why are opposing elements crucial in the formation of significant relationships? Is this all part of the integration of the Shadow side of the personality, a way of avoiding it or both?

Week Four...October 20

Family, Love and Chiron's Role

The fourth house of Family is the place of beginnings and endings and this holds true for the imprints we carry on our journey of love. We examine Chiron's special resonance, also a thought provoking and touching case study of a client's recent Chiron transit to House 4, which unlocked the healing of a long standing complex family wound.

Week Five...October 27

The Synergy of Friends and Lovers

Synastry is the practice of combining two or more charts to see where planets combine forces and define the kind of relationship that most readily follows. We will work with a surprise example but also cover procedures and rules to enable you to compare your own chart with another.

Week Six...November 10

Composite Charts: Where is My Relationship Going?

There are a few different ways of combining two charts to make a stand-alone third – the "composite chart", a modern astrological technique used to assess what two people can create together. We will use the one favoured by Rob Hand – the derived Ascendant composite chart and learn how to interpret it. Charts provided.

Week Seven...November 17

The Transits of Our Time

We explore current transiting planets that have an important role in affairs of the heart, on whole-hearted living. Sometimes the seemingly insignificant few days that trigger a larger longer pattern, can be portals that open the heart in unexpected ways.

Week Eight...November 24

The Star Signs as a Sun/Moon interaction

How do heart and head combine? The elemental dance of Sun and Moon is probably more basic to our path of happiness and balance than any other combination of planets. In this final class we will play with ways to make the most of our own Sun/Moon combo...To identify that place where love and healing coexist.

Venue: Highbury House, 110 Hinemoa St. Birkenhead. 7pm to 9:30pm.

Fees: Four Classes \$160.00 Eight Classes \$300 (if paid in full)
Casual Classes \$55.

This includes individual tutoring help via written feedback to your optional home tasks. **Bookings and your birth data are essential, including for casual classes.**
