### Local Classes and Workshops

#### Class with Colleen

**What shape are you and how are you configured?**

This class continues with in depth interpretation of the natal chart, concentrating this time on two major interpretive guides, planetary patterns as per *Marc Edmund Jones* and major planetary configuration, two phenomena which very often go hand in hand. It is said that planetary patterns underpin the temperament of the individual while major configurations—grand trines, T squares, grand crosses etc.—provide either stumbling blocks or stepping stones along life's way. The class will look at example charts from the rich and famous, notorious and notable and also at class charts—a working class, enlightening and fun—see you there.
